I have a big file of m4v video but i can't view on my ipad because it does not support m4v. Can you tell me how to convert m4v to ipad format (mp4) I need to convert my M4V files to MP4 files and to edit the timeline (I need to cut a few seconds from the beginning and from the end, plus to remove a watermark on the beginning of the video). I want to be able to convert M4V files to MP4 using this software and then be able to edit the timeline in the MP4 files after conversion. Can you help me please? I want to convert mp4 videos to 3gp videos using this converter for windows. If I run the *.mp4 file. then I'm getting "Illegal seek in input stream" error. Please help me. Thanks in advance. I'd like to convert a few 3gp videos that are on my camera sd card into the mp4 format. Is there a way to do that? Or is it better to go through an app? I have used a 3gp converter program to convert a few 3gp videos into the mp4 format and then I extracted 82157476af
